

## Revised Self-Monitoring Scale (RSMS)

All items are rated on a 6-point Likert-scale:

0 = "never true"

...

5 = "always true"

n/a = "not judgeable"

**Exception:** Items 9 and 12 are reversed (5 = "never true" ... 0 = "always true")

### **Scores:**

1. RSMS Total Score = Mean value of all items
2. Score "Ability to Modify Self-Presentation" = Mean value of items  
1, 3, 7, 9, 10, 12, 13
3. Score "Sensitivity to Expressive Behavior of Others" = Mean value of items  
2, 4, 5, 6, 8, 11
4. Number of items with the response "not judgeable"
